Vertical
Configuration

Lodging facility managers are in the hospitality business, preferring to take care of their guests and not their pool. PoolPak takes the guesswork out of pool facility management, leaving you with a recreation area that is both comfortable and inviting.

A PoolComPak environmental control system from PoolPak doesn't just reduce the humidity level, it manages the delicate balance of space temperature and humidity. Your system will use the least amount of energy while delivering utmost comfort.

One System Delivers Everything You Need!

- *Dehumidification*
- *Air Heating*
- *Pool Water Heating*
- *Air Conditioning*
- *Ventilation*

Rugged Features Deliver Unrivalled Performance

- Horizontal and Vertical Configurations - Fits Anywhere
- Scroll Compressor - Long, Efficient Life
- Coated Evaporator and Reheat Condenser Coils - Long Life
- Cupro-Nickel Water Heat Exchanger
- Corrosion-Resistant Cabinet
- ECC Electronic Control System
- Remote Monitoring - Phone and Internet
- Air Conditioning (optional)

PoolComPak Dehumidification Systems

Set It and Don't Sweat It!

- Humidity is precisely controlled at 50% to 60% RH for maximum user comfort—prevents chills and eliminates a muggy environment.
- Think Green. The PoolComPak recycles waste energy, the byproduct of the dehumidification process, to heat the pool water and air for free. Cost of operation is low while enjoyment is high. Environmentally-friendly R-410a refrigerant ensures efficient operation.
- Optimum water and air temperature is maintained for just the correct balance, no more or no less.
- Exclusive dewpoint control prevents condensation from forming on cold surfaces, protecting assets and leaving your facility free from annoying moisture buildup.
- Vital system components are engineered for long life and minimal maintenance assuring a high return on investment.

Pool Surface Area (Sq. Ft.)	Models
200 - 350	AW/HCD 550
300 - 500	AW/HCD 800
450 - 750	AW/HCD 1200
650 - 850	AW/HCD 1400
800 - 1000	AW/HCD 1800
900 - 1250	AW/HCD 2600
1200 - 1750	AW/HCD 3500
